

Grace

- Fashion appearance, quite operation
- IP 54, smooth curve fiberglass blades
- Multi colors for options

Flexible

- Wide power and voltage range
- Workable to do hybrid with solar panel

Reliable

- High efficiency on low wind speed with 2.5m/s
- Suitable for all applications
- Long lifespan to 10 years and good quality ensure
- CE certified with ISO

Advanced

- Sustainable energy producing
- Environmental protecting for whole world
- Coreless PMG with low rpm

Application Scenario

Household

Communication
base station

Farm

RV

Yacht

Street lamp,
monitoring
